

SUPPORTIVE SERVICES

Our dedicated on-site service coordinators assess residents' needs and provide linkage to supportive services, benefit programs, and community resources. They develop health, educational, and lifestyle seminars based on community interest. They also serve as advocates on the resident's behalf and may act as a liaison between the resident, their family, and area service providers. Their goal is to help residents maintain their highest level of wellness and self-sufficiency and to encourage an environment of opportunity.

ELIGIBILITY

Residency is based on acceptance of a submitted application. Our communities vary.

- ▶ 62 and older for any type of unit
- ▶ In certain communities, 18 to 61 requiring a mobility accessible unit
- ▶ For two people, one Head of Household must meet the minimum age requirement of 62
- ▶ Capable of fulfilling the lease by yourself or with services you provide
- ▶ At or below income levels established by HUD or the Low-Income Housing Tax Credit (LIHTC)

All income information will be verified by the appropriate parties. Applicants will be added to the property's waiting list if initial information on the application meets the eligibility requirements for the waiting list. When you are next on the list, you will be contacted by the property manager.
